### Erasmus

Last week we launched our third Erasmus project and welcomed visitors from France, Greece, Germany, Spain and Poland. Thank you to our families that were able to host some of our visiting children. We look forward to being able to take children to those countries over the next two years.

The project is called 'Europe is calling. Together we are back in time'. Each country has chosen a key historical person; ours being Joseph Swan. Joseph went to school in Hylton Castle and is famous for inventing the light-bulb! In our opening assembly, which the mayor and Look North attended, 'Joseph Swan' entered the hall via the Tardis. The Tardis was later used as the entrance to our Learning Lodge which was turned into an exhibition of the six historical figures that will be studied throughout the project.

### Technology Tom

Year 3 have had great fun working with our Erasmus visitors and Technology Tom. Supported by volunteers from Nissan, they worked in groups to make their own electrical car before racing them to see who went the fastest. The hall was filled with laughter from start to end!

### Year 5 Scientist

Year 5 have been working hard in their Science lessons. We have learned that the planets orbit around the Sun; we recreated this in our school yard. The children love their Science lessons and can't wait to visit the Life Centre.

### Victorian Day

On Thursday children thoroughly enjoyed learning about what school was like during the Victorian period; some even said that they would like the cane bringing back! They also enjoyed playing some games from that era but the general consensus was that they would like to keep their gadgets.
